B	1	Describe cost drivers/commodity prices related to your business and their relationship to t-shirt/screen printing pricing	Pricing generally runs fairly consistent through the year. Our screen printing pricing is maintained on a matrix and divided by quantity of prints and quantities of colors. The element that drives price changes is the style of the shirt. When quoting any expiration or special pricing will be notated.
B	2	Describe plan for providing pre-production samples of promotional items with logo	Pre-production samples are available with any order but are required with screen print orders over 2000 units. Please note, pre-production samples can add additional time to the order process.
B	3	Describe timeframe for providing adequate sample items, material, or color swatches	Samples are available on request and will be shipped via ground or overnight service as needed.
B	4	Offeror offer multiple options for delivery (e.g. two week, one week, rush/3 day delivery).	
B	5	Specify typical turnaround time for delivery (standard, rush, etc.) of the promotional items being offered.	Many of our items ship from Schaumburg, IL. Standard ground to George Mason is two business days. If needed we can provided overnight standard and priority service to make a specific in hands date.
B	6	Specify typical turnaround time for production (standard, rush, etc.) of the promotional items being offered	Standard lead times are as follows: Apparel/Embroidery – 3 - 5 days, Apparel/Screen Printing – 5 - 7 days. All production/lead time is calculated after order is placed and art if approved. Rush service is available depending on product and quantity. Rush fees may apply.
B	7	Offerors will be required to provide a semi-annual summary report via excel spreadsheet, showing all orders placed by departments during the previous six month period. Reports shall include the type, quantity, and price paid for each item on an individual and aggregated basis	
B	8	Describe return policy and associated costs	We hope that all products meet the expectations of our clients. However, we understand that is not always the case. Any item that has a defect or a quality issue will be addressed and either credited or replaced. In regards to decorated merchandise, our return policy is determined within the contract of the account. Our standard policy is as follows: Return Policy Returns will not be accepted unless accompanied with a Club Colors Return Merchandise Authorization Number (RMA). RMAs must be obtained within 45 days. There is a 15% restocking fee on program gift items returned within 45 days. Samples may be returned within 45 days with no restocking fee. Spec samples are not returnable. Refund Policy All embroidered and custom items are non-refundable. Because these items are customized, there will be no exceptions to this policy. Refund/Exchange Policy Please allow 7-10 days for delivery of custom logo merchandise. We are unable to offer refunds for custom items. Should your custom items be defective, you will be able to exchange the item(s) or obtain credit only when you return the items. Because these items are customized, there will be no exceptions to this policy. To allow us to properly credit your account, please adhere to the following procedures: • All original tags must remain attached to the garment. • Clothing must not be worn except for trying on. • Absolutely no returns/exchanges can be accepted for any reason later than 45 calendar days from the date your order shipped.
B	9	Describe quality control process	We have multiple quality checks in place for each order from receiving, pre-production, post production, and packing/shipping. We also perform audits of our suppliers where we don't handle direct production of order. Overseas orders are produced in approved factories who are able to provide documentation of safety, quality and production.
B	10	Describe all screen-printing and imprinting services	In house we offer a wide variety of techniques, styles and placements to ensure that your artwork is represented perfectly. We run an automated press, a manual press and a single screen and are able to produce up to 3500 impressions per day.
B	11	Mason desires to reduce inefficiencies associated with infrequent departmental orders. Describe how you will assist us in encouraging individual departments to consolidate orders so that orders are placed no more frequently than twice a month	We currently use a few different methods to combine orders. One option is to take advantage of group purchases. In a group purchase a specific item or items will be featured either through a website or an email link and each individual buyer is able to purchase the item. The orders are then dropped into the system when the ordering period is over and all items are produced together providing a lower price over all to the individuals who order. The second option is to batch orders and process them at a specific frequency such as once a month or every 15th and 30th. This allows us to batch ship the orders to one location to be distributed to the individuals going forward.
