This guide details the ordering procedures for Dell and Apple laptops and desktops for official business use by Mason faculty and staff. Departments may choose between several approved vendors, with corresponding procedures, to procure laptops and desktops. The on-campus option is Patriot Tech (operated by Barnes & Noble College) located in the Johnson Center. Over-the-counter purchases made on-site at Patriot Tech and paid with a Mason P-Card are exempt from eVA entry. Further instruction on purchasing vendors and procedures are detailed below.

**NOTE:** All equipment valued at $5,000.00 or more and all ETF equipment (purchased with Equipment Trust Funds) must be identified with a barcode label attached to the item and entered into Mason’s inventory records. Each department/office has an obligation to ensure that equipment it receives is properly barcoded. Additional information concerning asset tagging requirements is available at this link: https://fiscal.gmu.edu/equipment/acquire-a-new-equipment/barcoding-monitoring-equipment/. At the department’s request, items under $5,000 may be tagged. Please contact your Equipment Liaison for assistance with equipment tagging. **Units are reminded that ALL equipment should be collected during the employee exit process.**

**Equipment Trust Fund (ETF) Purchases**

All equipment purchased with ETF funds, at all dollar levels, must be purchased through eVA, Virginia’s electronic procurement system. Information Technology Services (ITS) is responsible for tagging bulk Obsolescence or New Faculty/Staff orders placed through eVA on a unit’s behalf. Individual units are responsible for barcoding all non-bulk orders and may request an asset barcode by completing the Request for Tagging Form. If equipment was previously barcoded but has changed locations the department should complete the New Equipment Location Form. Both forms may be emailed to assets@gmu.edu. **Units should submit the form(s) within 3 days of receiving the item.** Purchasing instructions for each vendor are listed below. Units may only purchase ETF equipment through eVA and may not purchase with a P-Card.

**Laptops and Desktops (non-ETF)**

**Dell** (eVA #C24916) is a registered vendor and offers a PunchOut Catalog in eVA. Orders to Dell may be processed in eVA as a PunchOut Catalog order with a P-Card or Non-P-Card order. Departments may choose to order directly from Dell by requesting a quote/configuration (a valid e-quote under contract #UVA845196 must be obtained from Dell if you do not choose to use the PunchOut Catalog). Dell does not recognize screenshots of their website as a quote. Once the quote is obtained, the unit would complete a Non-catalog order (link) in eVA. For more information on submitting an eVA order, please review the Quick Reference Guide.
