MICROSTRATEGY FOR RECONCILIATION
What Is Reconciliation

• A systematic review of Banner financial activity to verify that all charges and credits are accurate and appropriate.

• Usually **comparing source documentation** (receipts, travel vouchers, eVA purchase orders, etc.) **to financial reports** to confirm accuracy and identify transactions that have not yet posted.
Why Do We Reconcile?

University Policy 2114
• All financial units must reconcile on a monthly or bi-monthly (period).

It Is Important to:
• Identify keying errors
• Correct Fund/Org and Account code
• Provide stewardship of financial resources
• Follow university policy

Reconcile actual expenditures and revenue for each Fund/Org!
Reconciliation Process

• This process is for Mason Orgs and Funds that are not related to sponsored research activity.
  • Sponsored research funds begin with a “2” and are reconciled using the PI Reports in MicroStrategy.
How Do We Reconcile?

1) Establish a process for reconciliation
2) Retrieve financial reports
3) Gather source documents
4) Confirm that charges/credits are accurate
5) Identify expected transactions

7) Retain the completed reconciliation
8) Research and follow up on outstanding items, escalating if necessary
1) Establishing A Process

- Use a central filing system (electronic or paper) to compile source documents
  - Separate by Fund/Org
  - Makes it easy to find source documents when reconciling
  - Convenient for audit purposes
  - Source documents have to be kept for at least 3 years (10 years for sponsored research projects)
2) Retrieve Financial Reports

You may use one or all of the financial reports depending on the unit process.

- E-Print
- MicroStrategy

Fiscal Services recommends using MicroStrategy Reports in order to access the Reconciliation Certification document.
