General eVA information

• Mason is subject to, and complies with the Virginia State Prompt Payment Statutes, which mandates that invoices must be paid within 30 calendar days.

• In order to insure prompt payment the vendor may e-mail invoices directly to Accounts Payable (acctpay@gmu.edu).
  • All purchase order invoices must have a valid and current purchase order number (EP#) in order to be processed.
Do NOT Split Orders

A split purchase occurs when more than one transaction takes place back to back for the same item or with the same vendor. This gives the appearance that the cardholder is intentionally trying to circumvent the single transaction limit.

- A single cardholder makes multiple purchases from the same vendor in a short period of time
- Two or more cardholders in a unit purchase from the same vendor in a short period of time
- The total of the purchases exceed the single purchase limit

Order Splitting is not allowed, and will be subject to card suspension. Furthermore, you will NOT be reimbursed with State funds for your out-of-pocket expense.
Receiving Process

For Non-P-Card Orders, it is necessary to “receive” the items in eVA
- Orders under $5,000 may be received electronically in eVA
- Order over $5,000 require communication with Accounts Payable through email (acctpay@gmu.edu) noting the EP# and receipt confirmation

It is not necessary to “receive” P-Card orders in eVA. Approval of P-Card charges is completed through Bank of America Works
Receiving Process

Vendor payments may not be processed, until you have acknowledge that the goods and services have been received.

Receipt RC15536: EP10870 - MRI facility Lab Supplies - Org 170105 - 01/16/2017

For a receipt, indicate the amount or quantity to accept or reject for each line item, and the date received. If you reject receipt line...
Receiving Process

“Accept” when items have been received - OR - when an item has been previously received but now needs to be returned. In this case the order will need to be “Re-opened” and a change order must also need to processed.

“Reject” when items need to be returned because defective, not ordered, etc.

NOTE: When purchasing non-material items or products that will be received over time (subscriptions, dues, services, etc.) you will “receive” these purchases immediately in eVA once fully approved. AND Invoice should be sent to A/P with EP# referenced.
Denied Orders

- Approver
- Office of Sponsored Programs
- International Tax Office

Banner integration Errors

- No Vendor Match
- Closed Fiscal Period
- Fund/ORG authorization
- Document Contains Errors (everything else)

You can review comments by opening the PR and selecting the “History tab”
Change Order Process

Change orders must be processed if the transaction total differs by 10% or $199 from the original.

The first change to an order will add the suffix “V2” to the order title. The next change to the same order will reflect “V3.”

- An order may only be changed three times.
- A new order must be created for subsequent changes.
International Tax Matters

The International Tax Office is responsible for ensuring the University complies with U.S. tax and immigration law when making payments to or on behalf of its foreign visitors, vendors and in some instances, payments for services outside the U.S.
